# Proposed Pfeiffer House Project

Requesting \$47,000 of RCORP- I Funding to be utilized 1/2022 – 8/2023

## **Task 1: Hire a part-time Prevention Specialist**

- Support the provision of service access for those living at Pfeiffer House
- Support the Pfeiffer House's community space - where the 16-24 year-old group can gather, develop community, and connect with services

## **Task 2: Partner with county-wide medical, behavioral health, and social service providers**

- Develop individual responsivity-driven approaches that bridge Jefferson County's emerging adult population to services that build self-efficacy and support prevention and intervention.

## **Task 3: Develop Peer Youth and Young Adult Advisory Board**

- Engage participants in the development of a Youth Peer Network composed of young folks with lived experience.

## **Task 4: Develop and execute a communication action plan**

- Raise awareness of Pfeiffer House, and
- Increase engagement and service connection for targeted population

## Introducing JeffCo's R.E.A.L. Program

Jim Novelli, Exec Dir, DBH

# Jefferson County's R.E.A.L. Program

**R.E.A.L. Program**  
Recovery, Empowerment, Advocacy, & Linkage

**A Harm Reduction/Holistic Model**

Sponsored by Washington Health Care Authority & Salish Behavioral Health Administrative Services Organization (SBH-ASO)

# Jefferson County's R.E.A.L. Program

## Senate Bill 5476

- › Each behavioral health administrative services organization (BHASO) must establish a recovery navigator program that provides community-based outreach, intake, assessment, and connection to services to youth and adults with substance use disorders.
- › Using or manufacturing drug paraphernalia is not illegal to the extent the drug paraphernalia is for personal use. A person who would otherwise be subject to arrest for possession of a controlled substance, counterfeit substance, legend drug, or 40 grams or less of marijuana shall be offered referral for assessment and services by law enforcement in lieu of jail booking and referral to a prosecutor. If a person has been diverted on two previous occasions, law enforcement is not required to make additional diversion efforts.

# Jefferson County's R.E.A.L. Program

## The R.E.A.L. Program:

- › A community-based, street outreach program.
- › Individuals are to be served in their community where they are in need.
- › For individuals at risk of arrest or have been involved in the criminal legal system and
  - with behavioral health conditions (*substance use disorders and/or mental health needs, including persons with co-occurring substance use disorders and mental health needs*).
- › Prioritizes referrals from Law Enforcement.
- › Any social service agency or community member can refer to The R.E.A.L. Program.
- › Harm reduction model, recovery oriented, trauma-informed care, person-centered
  - program, and representing the diversity of the individuals we serve.

# Jefferson County's R.E.A.L. Program

## The R.E.A.L. Program (cont.)

- › *The REAL Program provides engagement and outreach to historically underserved and marginalized individuals.*
- › The REAL Program is **not** a crisis program. If an individual is in behavioral health crisis, please reach out to the Salish Regional Crisis Line at 1-888-910-0416.
- › The R.E.A.L. Program is staffed with those who have lived experience.

# Jefferson County's R.E.A.L. Program

## Trauma-informed Approach & Trauma-informed Care

- › Abstinence not required
- › Connection and stabilization
- › Voluntary and non-coercive
- › No fixed time limit for participation
- › Removal of barriers to services and resources

# What contributes to and perpetuates stigma?

## DRIVING FORCES

- lack of knowledge
- lack of experience
- media portrayal
- barriers to treatment
- criminalization of drug use
- racism

## STIGMATIZATION

- labeling
- stereotypes
- separation "us vs them"
- status loss/ discrimination
- power

## TYPES OF STIGMA

## IMPACTS

- social and health disparities
- barriers to effective treatment
- intersecting stigmas increase the likelihood of negative consequences

# How does stigma **impact** communities?

*“Their value as human beings are diminished and their talents and role in the community is often overlooked because their **substance abuse issues are in the forefront.**”*

Addiction seen as a choice

Lost humanity

Assumed character flaws

Resistance to treatment services

Social rejection

Self-stigma

**8%**

reported smoking **cigarettes**

**19%**

reported drinking **alcohol**

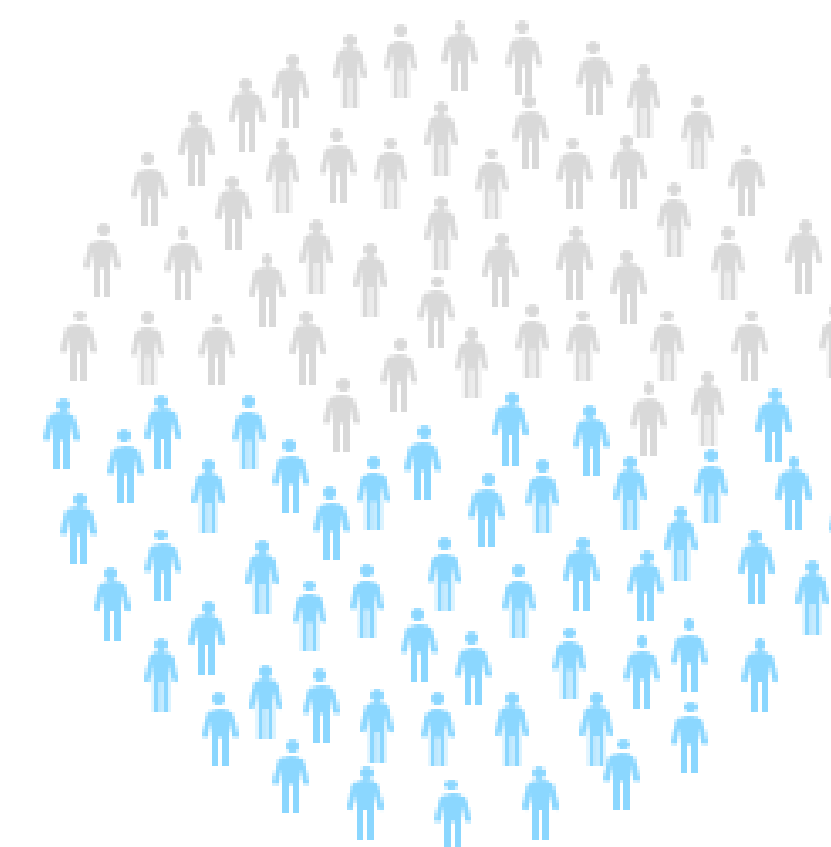

**24%**

reported smoking **e-cigarettes**

**4%**

of respondents believe **stigma is a problem** in the Olympic region

Common themes from those who **do not think stigma is a problem** and/or should not be focused on:

A focus on **stigma enables** individuals with substance addiction

The problem is not stigma but **addiction** and its impacts on the community

**Stigma is justified** and people should be judged based on actions

Would rather focus on **more prevalent issues** (mental health, housing, substance treatment and prevention)

COMMUNITY of HEALTH

# Perceived stigma of substance addiction

Survey respondents believe...

Olympic  
COMMUNITY of HEALTH

# Provider stigma

Ways provider stigma manifests in the health and social care delivery fields

**Lower empathy** and engagement towards people with addiction

People with addiction treated with **suspicion and judgement**

Provider **reluctance** and reduced competency to manage addiction

**Denial of care** and barriers accessing care

## Rejection

*Patients come in with a lot of guilt, a lot of remorse ...And often what you'll hear is they've been rejected so often by the health care system, by other providers, by their family, by their friends, by their employers, that just to come through the door and ask for help is huge.*

## De-humanized

*Their value as human beings are diminished and their talents and role in the community is often overlooked because their substance abuse issues are in the forefront.*

## Judgement

A client shared with me that a provider told them "yes, I could do this surgery for you, but then you would just keep using so what would be the point."
