Goal 2 - Cont'd:	Objective 2:	Strategy 3A:	Activities	Inputs
By end of 2022, address county resident service needs effectively. Develop detailed plan to address service gaps for Medical and Behavioral Health care in Jefferson County by 2023	Address current service gap around inter-facility transportation system of mental health patients	Strategy 3A: Perform assessment of how much utilization is currently occurring between JHC/EJFR; With Need established, identify strategies to address this gap Metric: Milestone Metric data gathering will be complete by 12/2022	3A.1 Chief Black's team to provide relevant data 3A.2 Connect with OCH and integrate EJFR/Jefferson County gap quantification data and participate in the OCH-led "priority action development" around regional inter-facility transportation for behavioral health (mental health/SUD) patients.	?? Metrics: Where do we get them?
<p>Jolene's Idea overview: Suggested focus is under a broad goal of "Delivering Services" - identify funding sources that are butting up against and crossing over each other. Generate clarity in one place around the fractured resource systems in our community so those resources can be better leveraged to address behavioral health challenges, ensure those with those challenges have housing and employment, and give them and us a chance at these clients becoming better parents and intergenerational trauma is reduced along with long term recidivism.</p>
